

# PRESS RELEASE, MARCH 2008

## **XFLO, the new name in solid surface products**

XFLO, Australia's new entrant in the solid surface products market, has been appointed the Australian distributor for HANEX® solid surface products.

XFLO is headed up by Director Don Biviano and National Sales and Technical Manager Craig Rose who have held senior positions in the industry for over 30 years. With vast experience at companies like SCF Interiors and DuPont™ Corian®, few people know the industry better.

Craig Rose said that XFLO was committed to delivering quality products, technical service, assistance and experience. He commented that the HANEX® appointment gave the company a flying start. "HANEX® is an internationally proven solid surface product," he said, "and has been manufactured by Hanwha L&C Corp, based in Korea, since 1995."

Craig said that HANEX® offered designers the flexibility of one seamless surface for a wide variety of commercial and residential applications. He said, "We're not just talking about benchtops. Applications include splashbacks, integrated sinks and bowls, vanity tops and basins, bathroom wall cladding and surrounds, tabletops, stairs, shelving and furniture too."

"HANEX® is an ideal premium solid surface material thanks to its beauty, durability and aesthetics," said Craig Rose, "and the designer colour range has been developed to coordinate with the latest European trends."

He added, "To match our product advantage, XFLO is also dedicated to delivering seamless service. Our service promise at XFLO is simple: when you place an order, we will deliver on time at an affordable price."
